

Interpump

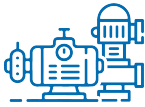

Interpump is an Ontario-based pumps, and water systems equipment distributor. With a team of technical specialists, Interpump provides solutions for residential, commercial, industrial, and municipal applications.

Pump Selection: Whether it's a potable, wastewater, or booster pump application, Interpump's team of application engineers can size the right pump for the job.

Pump Builds: Wide selection of Xylem Goulds and MP Pump products, including pump ends, seals, impellers and motors, we can configure the centrifugal pump you need for your specific situation ranging from 1/2 –20 HP.

Pump Packages: Wide range of booster pump products featuring the innovative DAB E.sylene and pump products from Goulds including the e-SV multistage.

Engineering: Provide assistance in writing and reviewing engineering specifications for tender packages. This helps minimize the number of changes required during the tendering process.

Startup & Commissioning: Offer on-site or virtual expert startup and commissioning services pumps, VFDs and systems.

System Flow and Vibration Analysis: Provide services ranging from a basic vibration check to advanced vibration analysis and balancing.

Interpump is a division of Summit Water

Key Partners

- VFD Booster Pumps
- 3" and 4" Submersible Well Pumps
- Shallow Well Jets

- 1.5HP to 15HP Submersible Wastewater Pumps, Panels and Accessories
- Explosion Proof & Grinder Pumps
- Engineered Basin Packages

- 1/3HP to 2HP Submersible Wastewater Pumps, Panels, and Accessories
- Non-Hazardous and Explosion Proof
- Engineered Basin Packages

- Submersible Dewatering, Wastewater, and Slurry Pumps
- Stainless Steel Pump Options
- 1/2HP to 150HP

- Investment Cast 316SS Pumps
- PumpPaks Available
- Self-Priming for many applications

- Submersible Axial and Mixed Flow Pumps
- Lineshaft Axial and Mixed Flow Pumps
- Diesel Pump Trailers

- Bronze and Stainless Gear and Centrifugal Pumps
- Flexible Impeller Pumps
- Various Pumps for many applications

- ANSI Pumps, Long-Coupled and Close Coupled
- Single Stage Vertical In-Line Pumps
- Self-Priming Pumps & Trash Pumps

- Mechanical Floats
- Pilot Duty Floats
- Custom Panels and Tank Alerts

- Heavy Duty Industrial Pumps
- Cantilever Solids-Handling Sump Pumps
- ANSI Pumps & Horizontal Split Case Pumps

- Industrial Gear Pumps
- Rotary Vane Pumps
- Mag Drive Options

- Submersible Wastewater Pumps for Residential, Commercial & Light Industrial
- Engineered Products
- Packaged Systems, Controls and Accessories
